

We enable businesses to tap into the global knowledge pool by setting up and managing Global Capability Centers (GCCs) in talent rich locations

- Critical functions across Industries are being disrupted by rapid advances in Data, Analytics, AI & Technology
- Access to Talent & Technology at the right cost and appropriate scale is increasingly a decisive factor to win. Tapping into a global knowledge pool is now a business imperative
- At Xcelyst, we offer a comprehensive end-to-end partnership to help you establish and manage your Global Capability Center (GCC)
- Our comprehensive strategy is designed to guide you through every step of the process, with minimal risk, ensuring that your GCC becomes a powerhouse of innovation, efficiency, and competitive advantage in the global marketplace

[Key Drivers]

Talent shortages in home markets

Need to keep core capabilities in-house

Need for faster response to technological changes

Deeper talent pool in destination countries

OUR VISION

To be an end-to-end partner for all your GCC needs: Consulting/advisory support, on-the-ground hands-on support for the initial set-up, talent acquisition, and ongoing management

Our seasoned Managing Principals bring decades of CXO-level global experience across diverse industries and functions. We have hands-on experience scaling large global teams/organizations hands-on both as entrepreneurs and CXOs
